

HOW TO ACCESS YOUR GOOGLE SUITE APPS FROM HOME

If you navigate yourself to the District's homepage or Lincoln's homepage, you can access your school drive by either logging into google (username@d93mail.com) or clicking on "Staff/Students" in the upper right-hand corner of the homepage.

You will be sent to a screen that looks as follows:

You can log in using your username and password you would normally use to log onto a computer or Chromebook at school.

If you are already logged into your school google account, then you could use the "sign in with Google" button.

Being signed into google means we have used your school gmail account (username@d93mail.com).

After you have logged in, it will take to a screen that has all the apps available to you through D93. From here you can access all your google apps as well as some of your textbooks for science, math, etc. The picture here may look different due to the apps that are accessible to you.
